WHEELING IN MONTANA

Local Bicycle Riders Are Alive to the Coming Sport.

DID A DOUBLE CENTURY

Encouragement Should Be Offered to the Wheeling Fraternity—Kindness Has Been Extended—Let the Club Members Increase Many Fold.

There is no reason why the clean, legitimate sport of bicycling should not become popular in the state of Montana, and there is every reason why the people of Anaconda should compose the vanguard in the introduction of better arrangements and facilities for the enjoyment of that sport.

An era in the history of bicycling will date from an impromptu meeting held in the rooms of the local club on Oak street at the close of the race meet, which took place here on the Fourth of July. At this meeting there was present a number of representatives from other clubs throughout the state, an organization was formed called the Montana State Wheelmen's association, and a president and secretary were appointed. B. M. Kennedy of Anaconda was elected president, and C. E. Weeks of Missoula was elected secretary. This was a step towards the formation of a permanent organization which is bound in the nature of human events to become a great organization and it will be but a few years before the greatest race meet in the state will be held in Anaconda.

It is also part of the duties of the board to form a racing circuit, to settle upon the dates in the different towns and cities of the state for the race meets to be held. The entire rules of the circuit races are to be under the management of the executive and racing board.

The circuit idea is a good one, as hitherto the dates of the various meets have been mixed up, and riders would require to get in training for each particular meet. When the circuit races are established the riders will need to get in training only once for each racing season. This will offer more encouragement to the riders, and better racing will be the sure result.

An innovation so far as Montana is concerned will be introduced by the new racing board, and that is the placing of riders. It has often been the case that a poor race from the spectators' standpoint has resulted from the fact that all the riders would loaf during the greater part of the course and sprint on the home stretch. By having triplets and tandems to set a pace for the riders, they will have to do good riding throughout the course.

After the perfection of circuit racing, the next step to be made, but which possibly may not be hoped for until next year, is the holding of a general meet where the races will be open to the world, and inducements made to secure competition by the best riders in the world. Who can say how much credit will be reflected upon the state of Montana, and the various cities here, by the riders who already have won laurels worthy of recognition throughout the continent?

Among the fastest riders in Montana may be mentioned: Evans of Great Falls, Ferguson, Boyce and Peters of Butte, Mason of Helena, Clark brothers of Missoula, and Nagle of Dillon. Some very promising riders in Anaconda are: Albert Church, Charley Morgan and Herman Lembo, and there are a score of others who are coming along.

The club here is composed of about 60 members and the membership is increasing every day. There are at least 500 bicycle riders in Anaconda, and the club ought to possess a membership out of this number of at least 300.

The officers of the club are as follows: President, George Shoenaker; secretary, E. B. Hamilton; captain, Albert Church; racing board, H. N. Kennedy, Alderman Jack Hamuli and J. A. Hasley.

Through the kindness of Mr. McGroarty they have a first class three-lap track at the Athletic field, where they have this season held two successful race meets. There were found to be some slight defects in the grading of the track, but these defects are now being remedied, and it is sure to prove one of the fastest tracks in the West. The members of the local club are full of enthusiasm and they deserve every support and encouragement that the people of Anaconda can afford to give them.

Facts concerning a celebrity in the bicycle world are published in a recent issue of the Chicago Chronicle, as follows:

Mrs. Harriet White of New York has accomplished the unprecedented feat for a woman of making a double century, and is the heroine of the Manhattan Bicycle club, under whose auspices the run was made. But once did she "fall by the wayside." She took a "header" just before reaching New Brunswick, but she pluckily climbed back on her wheel and made up her mind that the pain of a bruised back was nothing to the glory of a double century ridden to a finish.

In connection with her memorable feat Mrs. White's appearance is worth describing. Imagine a small, girlish figure, about 5 feet 2 inches, weighing perhaps 120 pounds. A face with a straight, determined mouth—more determined, probably, since Sunday than ever before—and deep-set blue eyes. She has, perhaps, an expression that in the saddle might pass for

what is commonly designated as the "double century." She has a manner of looking extremely intent—wholly absorbed in the matter of the moment. She is restless, nervous, with iron-like muscles and absolutely no superfluous flesh. She is a native of Providence, R. I., and cares for no sport other than the bicycle.

"I am a new woman in no other direction," she said proudly. "I play tennis, but I belong to no clubs and I don't care a fig for politics. What do I do for my complexion before or after my rides? Nothing, absolutely nothing."

When Mrs. White came into Wheelmen's ken ferry after her long-distance ride her husband and friends surrounded her with all sorts of solicitous suggestions. One recommended a hot bath, another a cold one; all sorts of lotions were recalled and old tonic recipes. Mrs. White laughed at them all.

"Bed!" she cried. "Not a bit of it. I'm going to dine out, and then we'll see."

Following her usual Sunday custom she dined at her mother-in-law's on what she called expressively, "everything."

WHERE IS OLE SWANSON?

That is the question that is bothering his brother Hans.

Three weeks ago last Tuesday there arrived in Anaconda a young Swede named Hans Swanson. He couldn't talk much English, but he could knock the language of King Oscar off in fluent phrases. Hans came here from St. Paul. He made the acquaintance of several of his countrymen in this city; he found comfortable quarters in the home of Mr. Jensen on Park avenue. Swanson told his acquaintances here that he came to Anaconda in search of information about his brother, Ole, who left Minnesota nine or ten years ago and came to Anaconda to live. Ole was a single man of thrifty habits. He worked for a long time in the Anaconda smelters, and about 1894 he left here to work in a mine near Granite. That was the last word his friends in Minnesota ever received from him.

Hans Swanson is now convinced that his brother's disappearance is the result of foul play. He has traced the missing man to a time in the fall of 1894, when he went to work on the grade of the B. & P. In October of that year, when the capital fight was on, Ole Swanson and a party of friends went prospecting in the Flint creek and Rock creek countries. One of the party was named John Duprey, and he is now employed in the mines of Butte. Duprey says they located some placer ground on Rock creek, and did some representation work for Charles McCleure of the Granite Mountain company. Duprey returned to Butte in the fall, and Swanson got a job on the B. & P. grade. When he returned to Anaconda, Swanson was said to have had several hundred dollars in cash in his possession. No one has been found since that time, and Hans has been looking for him ever since.

HE WILL BE BROUGHT BACK.

A Kodak Snap Shot Was the Means of His Capture.

R. H. Kirby, who was arrested in Missoula by the sheriff and who is wanted here on two charges of forgery, will be brought here at once for prosecution.

It will be remembered that he succeeded in passing two false checks here on July 4, one on MacCallum & Cloutier and the other on Mulligan & Deoley. Deputy Sheriff McGinness succeeded in procuring a small kodak picture of him, and getting copies struck off, sent them around to several surrounding towns. By this means of identification the young man was captured at Missoula.

Yesterday a telegram was received from Sheriff McLaughlin saying: "I can't hold Kirby. You can have him. When will you come?"

Deputy Sheriff McGinness will go to Missoula after him to-day.

ANACONDA VS. "GOOD LUCK."

A Good Game of Baseball May Be Expected.

The "Good Luck" baseball team of Butte will play here Sunday and Monday from the line-up of their team a close game may be looked for. Mattimore, Marr, Nolan, Howard Lloyd and Larry Gleason, five of the best ball players in Butte are with the new club. All five of the Butte players will start the first team to play in this city some two months ago, and everybody remembers that game as being a mighty close squeeze for victory.

Donohue, their new shortstop, is a late arrival from the Texas league and is said to be a crack-jack in that position. The "Good Luck" have very pretty gray uniforms, trimmed with blue and the words "Good Luck" across the breast.

Howard Lloyd, their catcher, is the boy who went to Helena with the Anacondas and caught two splendid games. He is a brother of Tom Lloyd, Anaconda's shortstop.

NAUGHTY GIRLS FINED.

They All Paid Up and Were Allowed to Go.

The city is 1000 richer and 20 denizens of the bad lands are 1000 poorer than yesterday morning. At 10 o'clock yesterday Magistrate Fitzgerald called the cases of 20 female prisoners who had been arrested the evening before by Chief White and his assistants on the charge of violating ordinance 8, section 2. No evidence was offered as the girls did not dispute the question of their guilt and Judge Fitzgerald fined each prisoner \$5. The fines were all paid.

Anna E. Hoover has brought an action against the Northern Pacific Railway company, claiming \$1,500 damage to property. The complaint alleges that the defendant company made an excavation on her property, which is the southwest quarter of section 20, in township 10, north of range 11 west, containing 160 acres.

At a meeting of the Anaconda Bicycle club held on Tuesday night Albert S. Church was elected representative of the local club on the executive and racing board of the state. It was announced that a club run to Deer Lodge will take place next Sunday. The start will be made from here at 2:30 a. m. in order to reach Deer Lodge before the racers from Butte arrive.

Mrs. J. O'Farrell, who has been ill for some time, returned to the city from Salt Lake on Tuesday in the private car of Marcus Daly. She was accompanied by Mr. J. O'Farrell, Dr. McCulla of Salt Lake, Rev. Father M. J. Murphy of All Hallows college, Salt Lake, Mrs. Miles Finley of Butte, Mrs. Rudden, Mr. P. Daley and Mr. M. O'Farrell of Anaconda. It is understood that the condition of Mrs. J. O'Farrell is not encouraging. Dr. McCulla and Rev. Father Murphy will return to Salt Lake to-day.

A Great Bargain

Owing to my inability to successfully conduct my store and ranch at the same time, I have concluded to offer my ranch for sale at a great sacrifice. It is located five miles east of Anaconda and one mile north of Warm Springs, contains 520 acres under fence, water rights, residence and sufficient outbuildings. I will sell with implements for \$4,500; \$2,000 cash, balance on time. It is just the place for the dairy business, good markets being near at hand. The price is a trifle less than 10 per acre and less than I paid for it. Title unquestionable. Apply or address Peter Lansing, Deer Lodge, Mont.

HE PREACHED ANARCHY.

Language That No American Would Care to Hear.

L. Kiamroth of Butte was tried before Judge Donohue and a jury last evening on a charge of disturbing the peace by making loud and unusual noises and conducting himself in a tumultuous and offensive manner. W. W. Goodman and John W. James were the opposing attorneys.

A number of witnesses stated in evidence that the defendant on Tuesday collected crowds about him by his boisterous conduct and addressed them in an unseemly way and after the manner of an anarchist.

He was soliciting subscriptions for a paper of some kind, and when Charles Arenberg, a barber on Commercial avenue, refused to subscribe, he said: "You don't want to be enlightened above a brute, do you?" He then referred to several prominent men in the city, calling them thieves, robbers and murderers. All this was done in such a loud tone that he could easily be heard a block away.

On cross-examination Charles Arenberg said in answer to the question whether or not he was disturbed: "If another man hadn't influenced me to go into the shop I think I would have been stuck for \$10 and costs before I got through with him."

Emmans, a smelterman, stated that the defendant used language that no American would care to hear, and that he was at once reminded of the Chicago anarchists.

The jury found him guilty and Judge Donohue fined him \$10 and costs. He was taken back to jail.

Utah's Pioneer Jubilee.

Utah's great jubilee, commemorative of the arrival of the pioneers in the valley of the Great Salt Lake on July 24, 1847, will take place in the city founded by them (Salt Lake) on July 29-30. Over \$100,000 will be expended by the commission having the celebration in charge and by the people of the state in providing entertainments and pageantry for the edification of the thousands of visitors whom it is known will attend. There will be five grand street parades; three grand concerts in the famous Tabernacle; band and vocal contests, in which the best musicians and singers in the country will participate; athletic games of every description; balloon ascensions daily; the grandest fireworks display ever witnessed in the West; last, but not least, President McKinley and his official family will be present in time to witness the reproduction of the arrival of the pioneer train. It will be the greatest celebration in the history of the West.

Not Likely to Intrude.

In the Brazilian hotels men are employed to do the chamber work, and they are prone to rush into the bedrooms of the guests when occasion requires without knocking. A prim little Yankee "schoolmarm" visiting Rio de Janeiro, and much annoyed at this custom, and after mildly protesting several times without effect, she said severely to the boy who did the work in her room: "Juan, be good enough to understand that I will not allow you to open the door of my room without knocking. If you do it again I shall certainly report you at the office. Why, I might be dressing!" "No danger of that, senora," responded Juan, in his best English, "because before I come in I always look me through the key-hole."
